HIT SUMMITS - ELEVATING THE OUTCOME®

Supercharge Your Cardiology Dept. - New Technologies and Policies

Cardiology is realizing that it's difficult to modernize and gain productivity when its systems remain in silos. Fortunately, technology currently available on the market is now allowing the sector to integrate all these systems and supporting devices. "The main interest is to improve patient care with efficiency through interoperability with a single hospital and/or enterprise" said Val Kapitula, Senior Consultant at Ascendian Healthcare Consulting...To read the full interview as featured in *DOTmed Magazine* - [click here](#)

Build a Case for Funding HIE with VNAs: It is widely understood that VNAs improve the way healthcare providers access patient data and, when implemented correctly, can provide the clinician with a more complete patient record than could lead to better care. Perhaps lesser known is the potential of the VNA to serve as a pathway for all care providers to access patient imaging data, or all data if configured as an XDS repository, when and where it is needed...To read the full article as featured in *Imaging Technology News* - [click here](#)
